SUMMARY

Community & Programs management professional with 7+ years of experience in community engagement and program coordination, specialist in leveraging online communities for business development and partner relationship management, a keen interest in frontier technologies (VR/AR) & building tech products. Global Shapers Community Delegate at Summer DAVOS 2024 in Dalian, China, 2021 Scholar at the Watson Institute, USA. Core competencies include divergent thinking as well as excellent communication, programs & project management, data tracking and community engagement. Key achievements include leveraging community network for Sales efforts resulting in a cumulative \$62,000 deal closure with institutions across South Africa, Rwanda, and Poland respectively. Excited to bring expertise in community management and cross-functional leadership to a mission-focused environment, creating impactful programs that resonate globally.

EXPERIENCE

Community & Programs Specialist

Osmosis (from Elsevier)

February 2023 - Present, US, Remote

- Executed tailored outreach campaigns through digital channels to drive student registrations, collaborating with partner organizations for broader reach.
- Leveraged community insights and member engagement across 60 different countries to contribute towards Sales efforts with a combined \$62,000 deal closed through this strategy with the University of Pretoria (South Africa), UGHE (Rwanda), and Medical University of Lodz (Poland)
- Proved Community ROI and contributions to organizational growth following Elsevier acquisition by tracking over 50,000 completed referrals, 530+ student-led events and 3 institutional partnerships since Fall 2023
- Develop & communicate high-level periodic reports on community data and metrics (average monthly active users of 64% and an NPS of 79%)
- Streamline user request and project management processes using tools such as Notion, Jira, Sheets and Loop, enabling the prioritization of 200+ participant issues monthly and fostering quicker resolution times that improved overall user satisfaction
- Coordinate/facilitate monthly community events using GSuite tools and Zoom Content creation for the community including monthly newsletters, community podcast, social media promotions & weekly announcements.

Founding Curator

Global Shapers Community (Initiative of The World Economic Forum)

March 2023 - June 2024

- Established partnerships with local stakeholders for financing/sponsoring community based projects
- Developed tech programs targeted at upskilling high school students with digital skills.
- Project reach of over 100 students
- Representing the Global Shapers Community at official World Economic Forum events such as Summer DAVOS 2024 and contributing towards the Global Collaboration Village (Metaverse-based project).

Community & Developer Relations Manager

The Bulb Africa

April 2022 - February 2023, Lagos, Nigeria

- Boosted developer community platform usage by 50% through immersive tools such as Discord
- Created presentations/communication on the implementation of initiatives such as \$5,000 women in tech scholarships
- Launched an in-person user program within first 3 months in the role to bring customers, prospects, and leads together in real life.
- 300+ members in attendance, culminating in 10+ new partnerships for the brand
- Increased community engagement by 25% through strategic social media initiatives and targeted developer outreach programs.
- Achieved a 60% increase in partnership collaborations by initiating FUTURE Z and DEVTHON 1.0 (community events) with tech firms.
- Managed 5 community events annually, facilitating interactions for over 500 developers, clients and internal stakeholders.

Community Advisor

Watson Institute

August 2021 - December 2021, Boulder, USA

- Organized and managed Institute's programs, and provided support to Preceptors
- Worked closely with Operations Coordinator on designing best experience and solving identified challenges in hybrid experience for each week
- Organized community events, track progress and provide access between struggling scholars and Preceptors.

Brand Ambassador/ Content Creator

Wubuntu Africa

09/2021- 03/2022, Beijing, China

- Authored top-performing content series generating increased monthly online traffic.
- Created African based stories/unique experience for Wubuntu's Chinese audience
- Introduced the Chinese audience to unique African communities, history, cuisine, and culture.

PROJECT

AI for Sustainability (climate panel sessions)

Geneva, Switzerland

- Participation in climate panel sessions in the Metaverse focusing on sustainability.

- Selected to join the World Economic Forum Annual Meeting as part of a first-of-its kind, all remote session harnessing the power of virtual reality (Global Collaboration Village) & AI to collaborate and synthesize perspectives on critical environmental issues.

Full scale transition of Web2 community from Slack to Heartbeat

US, Remote

- Transition of a community platform to enhance user engagement.
- Coordinated the transition of a virtual community from Slack using models such as beta tests, user feedback survey, and community experience analysis.
- Achieved a 35% growth in user base, NPS score of 76 and MAU of 64% within 6 months of the successful transition.
